Professional Summary

Passionate and results-driven Software Engineer with 3+ years of experience in full-stack development and educational technology. Proven expertise in building scalable web applications using modern technologies including React.js, Node.js, and MySQL. Strong background in mentoring and teaching, with experience training students in programming concepts and web development. Currently working remotely as a FullStack Developer for international clients while maintaining excellence in educational roles. Committed to leveraging technology to solve real-world problems and inspire the next generation of developers.

Technical Skills

Frontend Development

React.js · Next.js · JavaScript · TypeScript · HTML5 · CSS3 · TailwindCSS · Framer Motion

Backend Development

Node.js · Express.js · Python · Django · Flask · Java · PHP · REST APIs

Database & Tools

MySQL · PostgreSQL · MongoDB · Prisma · Git · Docker · Linux · AWS

Other Skills

Project Management

Teaching Mentoring

Technical Writing

Agile/Scrum

Problem Solving

Professional Experience

FullStack Developer (Remote)

March 2025 - Present

FitViz, USA

Working remotely as a contract and part-time FullStack Developer, developing fitness and health-related web applications. Responsible for designing and implementing user interfaces, developing backend APIs, and ensuring optimal performance and user experience across all platforms.

React.js Node.js MongoDB REST APIs Remote Collaboration

ICT Trainer Intern

April 2025 - Sept 2025

Kabete National Polytechnic

Training students in programming courses including Java and Web Development. Designed comprehensive curriculum, conducted hands-on coding sessions, and mentored students in software development best practices. Achieved 95% student satisfaction rate and improved programming comprehension scores by 40%.

Java Web Development Teaching Curriculum Design Student Mentoring

Web Developer Mentor

Oct 2024 - Dec 2024

eMobilis Mobile Technology Institute

Mentored students in their Web Development Bootcamp, providing guidance on modern web technologies and industry best practices. Conducted code reviews, supervised project

development, and facilitated workshops on React.js and JavaScript fundamentals.

Education & Certifications

Bachelor of Education in ICT

2021 - 2025

University of Nairobi

Comprehensive education in Information and Communication Technology with focus on software development, educational technology, and research methodologies. Completed coursework in computer science fundamentals, programming languages, and pedagogy.

Computer Science | Education Technology | Research | Academic Writing

Software Engineering Certificate

2023

ALX Africa

Intensive software engineering program covering full-stack development, algorithms, data structures, and industry best practices. Completed hands-on projects and collaborative coding challenges.

Python | C | Data Structures | Algorithms

Web Developer Certification

2022

eMobilis Mobile Technology Institute

Comprehensive web development certification covering modern front-end and back-end technologies, database management, and deployment strategies.

HTML/CSS JavaScript PHP MySQL

Key Projects

Myley Hairstylists Management System

2024

Comprehensive salon management system with appointment scheduling, staff management, inventory tracking, and customer relationship management. Features real-time dashboard analytics, payroll management, and automated notifications.

React Node.js Express.js MySQL TailwindCSS Chart.js

Rozzette E-commerce Platform

2024

Modern, full-featured e-commerce platform with advanced product management, order tracking, and analytics dashboard. Built with Next.js for optimal performance and SEO, featuring secure payment integration and comprehensive admin controls.

Next.js MySQL TailwindCSS TypeScript Prisma Shadcn/ui

Key Achievements

- Successfully developed and deployed 15+ web applications for various clients
- Trained 50+ students in programming and web development with 95% satisfaction rate
- Improved student programming comprehension scores by 40% through innovative teaching methods
- Built scalable salon management system serving 100+ daily users
- Developed e-commerce platform processing $10K+ monthly transactions
- Maintained 99.9% uptime for all deployed applications
- Contributed to open-source projects with 500+ GitHub contributions

- Achieved AWS Cloud Practitioner certification (pending)
